SUMMARY

Pre-final-year Electronics and Communication Engineering student at Mepco Schlenk Engineering College with a strong interest in VLSI systems and embedded systems. Passionate and eager to strengthen technical skills through hands-on projects, internships, and industry-oriented learning while contributing effectively to challenging engineering projects.

EDUCATION

Higher Secondary Education at TVS Higher Secondary School, Madurai

Year of Passing: 2023-24 Grade: 87.6

Bachelor of Engineering in Electronics and Communication Engineering | MSEC, Sivakasi

Year of Passing: 2027-28 CGPA: 8.04

PROJECTS

Design of Basic Electronic Voting Machine (2025)

- Designed a basic Electronic Voting Machine using CD4026 Decade Counters and Seven-segment display which are build to demonstrate the voting process.

Design of Fingerprint based Electronic Voting Machine (2026)

- Developed a fingerprint authenticated Electronic Voting Machine using Arduino, RM 305 Fingerprint Sensor which enables the eligible voters to vote.

TrackoVex - a simple solution

- Designed and developed a BLE Tracker to locate our day-to-day misplaced things using ESP 32, Neo6M which is a low-cost alternative to Apple Airtag.

CERTIFICATES AND AWARDS

- NPTEL- Introduction to Industry 4.0 and Industrial Internet Of Things
- NPTEL- Introduction to Internet Of Things
- Runner-up at Tech Innovative 2026 organized by IIC, MSEC
- IEEE English for Technical Professionals
- One Day Industrial Visit Programme at BSNL, Chennai

SKILLS

- Programming Languages- C, C++, Python, Java, DSA
- MATLAB Software
- Antenna Designing using Ansys Software
- Problem Solving
- Critical Thinking

LANGUAGES KNOWN

- Tamil
- English
- Japanese (N5)
- Hindi
